

Hydrous Ethanol Blends Signed into Louisiana's Law (The Green Optimistic)

www.greenoptimistic.com (August 2008): Governor Bobby Jindal has signed into law the Advanced Biofuel Industry Development Initiative, the most comprehensive and far-reaching state legislation in the nation enacted to develop a statewide advanced biofuel industry. Louisiana is the first state to enact alternative transportation fuel legislation that includes a variable blending pump pilot program and a hydrous ethanol pilot program.....(view the full article)
